SIR:

This statement, together with the accompanying  
INFORMATION DISCLOSURE CITATION is provided to inform

the U.S. Patent and Trademark Office of known art. In view of the many possibilities in which references can form a basis for a combination of references possibly alleged to be a basis for an obviousness type rejection in an Office Action, it is deemed to be virtually impossible for an applicant to recite references for each and every element forming part of a claim and, furthermore, in view of an unknown individual element identity precision versus state of the art, elements with some difference in element identity.

The above recited references taken alone or in combination are believed neither to anticipate or to render obvious the present application.

Consideration of the reference documents during the examination of the present application is respectfully requested.

Respectfully submitted,

Juliusz Połczyński
